**STORAGE SILOS
& COMPLETE PROCESSING PLANTS**

STORAGE SILOS

STORAGE SILOS with specific solutions according to your requirements, for pellets, powder, flakes, etc.

SILOS WITH PNEUMATIC RECIRCULATION of material for mixing, optimization of mixtures and avoidance of disintegration. With mixing at the outlet cone. With mixing by means of an organ.

MODIFICATION OF EXISTING SILOS to incorporate load cells, vibrating bottoms, new rotary valve pant, etc.

COMPLETE PROCESSING PLANTS

PHARMACIST

NOURISHMENT

CHEMICAL

PLASTIC

Specific solutions in stainless steel, aluminum, textile, carbon steel and painted finishes.

- Static or mobile equipment.
- Equipment for indoor or outdoor installation.
- Silos with up to three independent storage compartments.
- Mass flow designs, first in - first out.
- Optimized designs for interior cleaning.

Optional:

- Non-wear curves.
- Thermal insulation to avoid condensation.
- Filters for dust and emissions control.
- Loading system for trucks.
- Dehumidification and/or drying of transport air.
- Sampling.
- Inertization with nitrogen
- Pneumatic and/or mechanical filling and/or delivery system.
- Vibrating bottom.
- Fluidization.
- Suction boxes.

Technology:

- Maximum and minimum sensors.
- Load cells.
- Continuous or discontinuous load controls.
- Product displays.
- Types of Valves: shut-off, extraction, safety, deaeration, rotatives, etc.

WE HAVE THE EXPERTISE.
WE HAVE THE RESOURCES.
WE ARE SOLIDS.
